Google Classroom/Synergy Gradebook Sync

As a district we have completed the Google Classroom / Synergy Gradebook district set up. This set-up will allow teachers to sync their Google Classroom gradebook with their existing Synergy sections. This will minimize duplication of gradebook entry for teachers.

In order for this sync process to function, teachers will need to *Configure Class Settings* and *Enable Google Classroom Settings* (see relevant pages in the Synergy Gradebook User Guides below).

In order for this sync process to work, teachers must have a unique/separate google classroom ID for each identified section which they teach.

Directions for enabling and utilizing the feature are available in the Synergy Gradebook User Guides. Elementary and Secondary User Guides are linked below, please see the relevant pages for Enabling Google Classroom within Synergy.

•	Elementary Gradebook User Guide	
	Chapter 2: Grade Book Setup	
	Configuring Class Settings	62
	Chapter 4: Using Grade Book	
	Grade Book and Google Classroom	176
	Logging into Google Classroom from Grade Book Main	176
	Enabling Google Classroom	179
	Viewing Google Classroom from Grade Book Main	180
	Unlocking Google Assignments	182
•	Secondary Gradebook User Guide Chapter 2: Grade Book Setup	
	Configuring Class Settings	62
	Chapter 4: Using Grade Book	
	Grade Book and Google Classroom	187
	Logging into Google Classroom from Grade Book Main	187
	Enabling Google Classroom	190
	Viewing Google Classroom from Grade Book Main	191
	Unlocking Google Assignments	193
